28) This relates to the scheme proposed by the city improvement Trust Board, Mysore to construct 58 Shaduka houses of double unit at an estimated cost of Rs 55,000/- for providing houses to the Adikarnatakas in Jayalakeshpur (old padmarahalli extension) in Mysore city. According to this scheme only half the cost of the ~~construction~~ scheme will be recovered from the Adikarnatakas and the rest will be provided, for this purpose, free of cost.

city cannot be accepted. This is too
 costly scheme which the Govt are not
 prepared to share. The Mysore Urban
 Trust Board are making proposals
 without consulting the Govt as to
 whether the Govt are prepared to meet
 the half the estimated cost or not.
 If the above demand is accepted, even
 crores of Rupees will not be sufficient
 to meet the ^{demand of} 14 Lakhs of people in the State
 even in a city like Bangalore we have
 not given more than Rs 250/- per
 each house both in kind & cash.
 This is the rate fixed generally throughout
 the State excepting Malnad places. Hundreds
 of Adhikarnatakas in Mysore etc. are
 asking for help. If the proposal of
 the Trust Board is to be accepted, I am
 afraid the major portion of the total
 allotment of 18 Lakhs of Rupees will have
 to be spent only in Mysore etc. with the
 result the majority of the population
 will be deprived of the ~~help~~ generous
 help given to these poor people by Govt.
 Under these circumstances it is not possible
 to give them more than Rs 250/- per each
 house. The Trust Bd have generously
 agreed in their letter to advance the other
 half of the estimated cost of Rs 30,000/- and,

SIR,

Subject:- Formation of an Adikarnataka Colony in Jayalakshmipuram
(Old Paduvarahalli Extension)

Jy
I have the honour to state that the question of affording relief to the Adikarnatakas of this place who have no sanitary dwelling houses has been engaging the attention of the Board for some time past. In the meanwhile the Adikarnatakas of the above locality presented a petition to the Minister for Revenue and Law on 13th February 1945 representing their grievances in this behalf. A similar application was also given to me. In August 1946 they came up in a body and gave me another representation in the form of an address. They have represented that if they are given sites free and also half the cost of the houses as grant from Government, they would construct the buildings as per poor house plans to be furnished

Action was thereupon taken to give them relief. A lay out plan of the sites to be granted to them has been prepared to provide 58 sites for them, against the existing 52 houses. A plan showing the type of houses to be constructed has also been prepared and enclosed to the file. The idea is to construct the houses as per the design by the Trust Board and ~~then~~ ^{then} hand them over to the Adikarnatakas by recovering half the cost thereof in easy instalments as is being done in the case of the officials of the Palace, Trust Board and Municipal Offices. The cost of compensation for the acquisition of houses in the area that will be awarded will be deducted out of half the cost of construction of new houses proposed and the balance recovered from the dishoused persons in easy instalments.

The entire scheme was placed before the Board at its meeting held on 25th September 1946 when it was resolved that in the first instance 58 houses may be constructed and that Government may be requested to grant half the cost of constructing these houses, the other half being borne by the Adikarnataka applicants. A copy of the Board's Resolution in the matter is enclosed to the file for kind perusal.

The cost of the building to be constructed will be Rs 1,00,000/- and the cost to be kindly sanctioned by Government will be Rs 50,000/-

As this is one of the necessary works to be undertaken to ameliorate the condition of the depressed classes, I request that early sanction of Government may kindly be obtained to the above proposal with half the cost as Government grant, the other half being borne by the Trust Board in the first instance and to be recovered from the Alkharat as later on, in instalments.

 above estimate to Rs 63,500.

It is seen from your letter dated 1-2-47
 that the cost of compensation would be

 as reported by you the Adikarnataka

Subject - Modified estimate for Rs 55,000/- for formation of
Adikarnataka Colony in Joyalakshripuram (Old Paduvar-
halli Extension), Mysore

With reference to your letter No L 1449 dated the 23rd July 1947

returning the above estimate duly scrutinized by the Chief Engineer for
Roads and Buildings for Rs 63,000/- and directing them to furnish cer-

tain information, I have the honour to state that a detailed note on

the above scheme (copy enclosed) was placed before the Board and got
approved vide their Resolution No 410 dated the 25th March 1948 wherein
it is resolved that it is not desirable to render the scheme more costly
and thus increase the financial commitment of the Government and they
suggested the idea of constructing Adikarnataka houses. Accordingly the
estimate and plan are modified and the amount of estimate reduced to
Rs 55,000/- for construction of 58 Adikarnataka units.

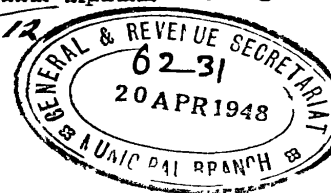

The Adikarnatakas under the present proposal will be facilitated
with free sites and half of the cost of construction and hence the ques-
tion of compensation to their houses does not arise.

The modified estimate together with plan, detailed note on the
scheme and the records received with your above reference are herein
enclosed. I request that the sanction of Government to the estimate
may kindly be communicated with allotment of Rs 30,000/- as out-right
grant to meet half the cost of construction of houses plus the full cost
of forming the sites and roads. The other half of the cost will in the
first instance be met by the Board and recovered from the Adikarnatakas
in easy instalments.

The Chairman,
City Improvement Trust Board,
Mysore

Sir,

I am directed to invite reference to the correspondence ending with your letter No D2 TBR 410/47-48 dated 12-4-1948 regarding the estimate for Rs 55,000/- for the formation of an Adikarnata Colony ~~at~~ Jayalakshmipuram ^{improvement} and to state as follows -

It is seen therefrom that it is proposed to construct 58 model thadike units, the Adikarnatakas being granted sites, free of cost and half the cost of construction and an outright grant of Rs 30,000/- is accordingly asked for to meet the cost of construction of the houses plus the full cost of forming sites and roads. The other half of the cost is proposed to be met by the Board and recovered from the Adikarnatakas in easy instalments.

Government have examined the said proposal in detail. They consider that the request for an outright grant of Rs 30,000/- by the Government towards the scheme in question cannot be complied with, having regard to the fact that the provision made in the State budget for the amelioration of the Depressed Classes will hardly suffice to meet the demands of these people throughout the State on the basis of the scale on which the concession is now proposed to be shown ^{to them}. If the Trust Board are interested in giving relief to these people they may as well advance the entire sum required from out of their funds and recover the same from the grantees in easy instalments.

I am to add that the Trust Board may however layout small sites for being granted to these people who may be asked to construct houses thereon by applying for a Government grant which will

be given at Rs 250/- per house both in cash and
kind, which is the maximum fixed in this behalf

The Chairman,
City Improvement Trust Board,
Mysore

Sir,

I am directed to invite reference to the correspondence ending with your letter No D2 TBR 410/47-48 dated 12th April 1948 regarding the estimate for Rs 55,000/- for the formation of an Adikarnataka Colony in Jayalakshmipuram, Mysore City, and to state as follows -

It is seen therefrom that it is proposed to construct 58 model thadike units, the Adikarnatakas being granted sites, free of cost and half the cost of construction and an outright grant of Rs.30,000/- is accordingly asked for to meet the cost of construction of the houses plus the full cost of forming sites and roads. The other half of the cost is proposed to be met by the Board and recovered from the Adikarnatakas in easy instalments

Government have examined the said proposal in detail. They consider that the request for an outright grant of Rs 30,000/- by the Government towards the scheme in question cannot be complied with, having regard to the fact that the provision made in the State Budget for the amelioration of the Depressed Classes will hardly suffice to meet the demands of these people throughout the State on the basis of the scale on which the concession is now proposed to be shown to them. If the Trust Board are interested in giving relief to these people, they may as well advance the entire sum required from out of their funds and recover ~~them from~~ the same from the grantees in easy instalments.

I am to add that the Trust Board may however layout small sites for being granted to these people who may be asked to construct houses thereon by applying for a Government grant which will be given at Rs 250/- per house both in cash and kind - which is the maximum fixed in this behalf
